

NJ Legion Iced Tea

A Day to Remember

Get up, get out, this is your wake up call
We run this town and you can fight us all
We keep on coming back for moreDon't think you can hold us down
We'll tear this building down
Try to be careful what you sayGive it up, your tactics are astounding
Find your place and leave us with some peace of mind
You do this every timeSo here's to another better year
We crossed that thin line, don't try to hold us here
If for just this once you'd think of us
I hope you're happy with yourselfGet up, get out, who's gonna break your fall?
When we drove back down, they're gonna stay so small
We keep on running for the doorJust wait things will come back around
It's too late for them, they're headed straight for a meltdown
I'm not a part of your clichGive it up, your tactics are astounding
Find your place and leave us with some peace of mind
You do this every timeSo here's to another better year
We crossed that thin line, don't try to hold us here
If for just this once you'd think of us
I hope you're happy with yourselfSo here's to another better year
We crossed that thin line, don't try to hold us here
If for just this once you'd think of us
I hope you're happy with yourselfJust think about, just think about everything
Be careful now, be careful what you say
What a wayThis is the life we chose, this is the life I lead
They can never take this from me
This is the life we chose, this is the life I lead
They can never take this from me!So here's to another better year
We crossed that thin line, don't try to hold us here
If for just this once you'd think of us
I hope you're happy with yourselfSo here's to another better year
We crossed that thin line, don't try to hold us here
If for just this once you'd think of us
I hope you're happy with yourselfSo here's to another better year
I hope you're happy with yourself
