

Steppin' Out (Greenskeepers Mix)

Kaskade

Here we are
We've come so far
A fine romance
Steppin' out to dance Your lovely charms
When you're in my arms
Subtle glance
When steppin' out to dance
To dance, dance Could you think it over?
When we get older
I'll still want you here with me
Darling, I hope that you agree There's somethin' that takes place
Whenever we embrace
I'm hopin' that you take this chance
Steppin' out to dance Here we are
We've come so far Could you think it over?
When we get older
I'll still want you here with me
Darling, I hope that you agree There's somethin' that takes place
Whenever we embrace
I'm hopin' that you take this chance
Steppin' out Could you think it over?
When we get older
I'll still want you here with me
Darling, I hope that you agree There's somethin' that takes place
Whenever we embrace
I'm hopin' that you take this chance
Steppin' out to dance
