

Grain of Sand

[Vonda Shepard](#)

I feel like I'm walking on a mine
I'm gonna leave it all behind
I feel like I'm gaining my soul
While I'm losing my mind And I feel like I understand
And I feel like a grain of sand I'm gonna walk through that door
I'm gonna see what it's there for
'cause all I ever want is your skin or your soul baby
But you couldn't give me either one of those And I feel like I understand
And I feel like a grain of sand
And I feel like a grain of sand You use to hold me like a flower
We used to talk for seven hours
I see the bigger picture now And I feel like I understand
And I feel like a grain of sand
And I feel like a grain of sand
