

# Ea

## Valahia

To all my people tell me what you want 'Ea'  
Hawaiians tell me what you need 'Ea'  
Trying to take what the Kanaka Maui got  
just to satisfy the governments greed 'oh ey'  
Hawaiians tell me what you want 'Ea'  
Kanaka Maui tell me what you need  
We must never forget what our Waku puna taught 'Ea'  
Even if i have to bleed  
the educator  
manapuli bedenacrator  
you should have known my \* that id be back sooner or later  
bedeenacrator  
by now you know they did the run and ever could you would see us rising like an elevator  
but its time for the end that you missed 'uprise'  
i see the fire burning in the childrens eyes  
another freeway  
another '\*'  
its time to make the goverment choke on there lies  
the term hawaiian homes is a joke to me  
cuz every peice of land is hawaiian homes to me  
but in order to be a resident your blood must be 50%  
whoever thought of that low is an idiot to me  
so were living on the beach and yo ucall us \* cuz were living off our own land fishing from our own waters  
i promise our fight will never be over  
just try to run us over with your darn bull doser  
i rap for my people  
i cry for my people  
i live for my people  
i die for my people  
what you see is what you get take me as i am  
and no i aint ever had an uncle named sam  
to all my people tell me what you want 'Ea'  
Hawaiians tell me what you need 'Ea'  
trying to take what the kanaka maui got  
just to satisfy the governments greed  
Hawaiians tell me what you want 'Ea'  
kanaka maui tell me what you need 'Ea'  
we must never forget what our waku puna taught 'ea'  
even if i have to bleed

you only think its a battle of soul  
but your damn sure right  
cuz this here also my home  
and im prepared to fight  
i reminiss about the past and the present  
and obviously the other color didnt listen  
so let me break it down in a division of fraction  
in silenced position and condereeeaction  
cuz if they doing this then we being doing that  
but if they doing that then we be doing this  
dont get my people pissed cuz it turns real radical  
were nothing like a rush up infont of the capital  
support this offerty were all the same kind  
radiona believe me they wont try to cross the line  
but it better not be mine or the back of any kind  
im just trying to stand up for what is mine  
i right another rhyme or whatever it takes  
to accomplish all these dreams i was made up in the mix 'Ea'  
To all my people tell me what you want 'Ea'  
Hawaiians tell me what you need 'Ea'  
trying to take what the kanaka maui got just to satisfy the goverments greed  
Hawaiians tell me what you want  
kanaka maui tell me what you need  
we must never forget what our waku puna taught even if i have to bleed  
The hawaiian lyrisist be south of serious 'warriors'  
look into the mist tell me i can feel in this  
i stand in mine and im ready to rock  
this past is crooked and i savor my time  
no strings attatched ai know i keep it mellow why you trippin  
pulling the stings like you da better  
mr.sam you da man acting like you give a damn  
i ignite and fight for my homeland  
wa'a im pulling weight in my ta'a  
a million bottle rocket with the stool in my ta'a  
the kanaka draw kit with styles to spare  
let me disperss disperss for mr president  
represent so tell me where the justice went  
your like this conversation is insefficient  
you cant run from the past  
you cant hide from the truth  
and i still aint wearing no soulja boi  
to all my people tell me what you want 'Ea'  
hawaiians tell me what you need 'Ea'  
trying to take what the kanaka maui got just to satisfy the goverments greed  
hawaiians tell me what you want 'Ea'

kanaka maui tell me what you need 'Ea'  
we must never forget what our waku puna taught 'Ea' even if i have to bleed
