

# This Is Pop?

Xtc

In a milk bar and feeling lost  
Drinking sodas as cold as frost  
Someone leans in my direction  
Quizzing on my juke-box selection  
What do you call that noise  
That you put on?  
This is pop, yeah, yeah  
This is  
On a walkway and moving fast  
All I get is transistor blast  
Someone leans in my direction  
Quizzing on my station selection  
What do you call that noise  
That you put on?  
This is pop, yeah, yeah  
This is  
We come the wrong way  
We come the long way  
We play the songs much too loud  
This is pop, yeah yeah
