## **All Those Years**

## **Cheap Trick**

You know I feel the deep blue? You won't hear me cry, see me die What am I going to do?

I can see your face every timeAnytime you want I'm here for you Now my heart criesAll those years

(All those years)

It's a lonely, lonely night

A lonely, lonely nightAll those years

(All those years)

It's a lonely, lonely night

A lonely, lonely, lonely nightI close my eyes

I can see your face every time

How can I say to you

I'll do anything you want me to? Anytime you want I'm here for you

Now my heart criesAll those years

(All those years)

It's a lonely, lonely night

A lonely, lonely, lonely nightAll those years

(All those years)

It's a lonely, lonely night

A lonely, lonely, lonely nightRight from the start

I gave you my heartAnytime you want I'm here for you

Now my heart cries
