

# Reward

## The Teardrop Explodes

Rooms spin like hurricanes  
Walls begin to breath  
When will this be over  
    Like it more  
    Then i should  
    Its taking over me  
When will this be over  
    Fighting for you  
    Struggling for you  
    Waiting for you  
What do i do this for  
    All for the high  
Why do i do this why  
    All for the high  
I rummage through this disaster  
    To find a reward  
    Why do i do this why  
    All for the high  
    Torn in half again  
    I still feel the same  
My head spins like a hurricane  
    I cant see  
    Right in front of me  
Through the shit inside of me  
    When will this be over  
    Fighting for you  
  
    Struggling for you  
    Waiting for you  
What do i do this for  
    All for the high  
Why do i do this why  
    All for the high  
I rummage through this disaster  
    To find a reward  
    Why do i do this why  
    All for the high  
    My head spins  
    Lost control

When will this be over  
My eyes roll  
Look inside  
When will this be over  
What do i do this for  
All for the high  
Why do i do this why  
All for the high  
I rummage through this disaster  
To find a reward  
Why do i do this why  
All for the high
