

With No Fear

Clarence Clarity

Drip like summer rain
Streaming, it beckons me home again
And I'll leave my faith wide open
Just return me to the sea They call it Key West
But honest to God, they don't know my name
I could be anyone
Or anywhere, as I fade into the tide
It never ends...And,
With no fear, no
With no fear, no
With no fear, no
With no fear, no
Leave me be where I lie Am I heavenly?
I promised to call you, but like hell I did...
Now that summer rain,
Will kill you
And all in its path
Will never learn And,
With no fear, no
With no fear, no
With no fear, no
With no fear, no
Leave me be where I lie For all the hits I swerved round
For all the loves I walked out on
Leave me be where I lie...
Your perfect fit, my imperfect fears
So we never did re-invent the wheel
Leave me be where I lie...
Leave me be where I lie,
To die...And with no fear, no
And with no fear, no
And with no fear, no
And with no fear, no
Leave me be where I lie
