

I Got Your Love All Over Me

The Partridge Family

Ooh, I'm a part of you
Ooh, I'm a part of you I was the one who said never again
Let's be friends, who needs love anyway?
But since I met you I can't forget you
Without a sound it came pouring down Now I got your love all over me
It's in my heart, it's on my face
I got your love all over me
And I love it, feeling the way that I do You were the one who said you couldn't stay
Didn't you say you had plans of your own?
Something got started, we never parted
Yes, I think we slipped and fell into it Now I got your love all over me
It's in my heart, it's on my face
I got your love all over me
And I love it, feeling the way that I do I'm a part of you
I'm a part of you I got your love all over me
It's in my heart, it's on my face
I got your love all over me
And I love it, feeling the way that I do I got your love all over me
It's in my heart, it's on my face
I got your love all over me
And I love it, feeling the way that I do
