

Luminary (Prelude)

Those Who Dream

If you bring me the sunset
I'll wait for you at dawn
Wait for the stars to fade as tranquil lights are born
(1, 2, 3, 4, alive!)
It's a sign that we survived
Survived the city coming alive
We got away
They changed
But now they're on their own
Being alone time travels slow
And in a city bearing luminary afterglow
A spark ignites
It burns the night
And it begins the show
