

Thrall Fulcrum Apex

Origin

Trials and degenerations of an upjumped demigod
Corrupted and adulterated seething with a burning urge to
 Usurp / The highest orders
 Bend / The darkest matter
 Reshape / In his own image
 The very pattern of the universe
 Resolution only frailty stagnant duty lack intention
 Vows untendered promises to bring about the great dismantling
 Death / Venerated
 Grants / Sovereignty
 Reach / Depths of power
 Slay / The supplicants
 Accolades that fill the coffers balance out life abundance
 Assassinate galactic scale a holocaust with just a single thought
Never to be a thrallThe rhapsody of the despot / Eternal will bend the knee
 Tightening the grip on the reigns / Fabric of reality
 Supremacy begets supremacy / Schisms begin to break
 Dichotomized opposition / A faulted oblivion
 Pinnacle of hate
 Arise / Unchecked unchallenged
 Reign / Through brutality
 Destroy / Everything that's sacred
 Raze the kingdom of the spheres
 Meridian peak of power / Solidified in wanton slaughter
 Desire for a silent empire / All their lives are little more than dust
