# Uh Oh

## HoneyPie

My hands are down, I can no longer masquerade
You're just like poison in my veins killing me inside
I know you tell everyone, I'm, what's her name
But you're story tends to change when you look in my eyes
Uh oh, do you really wanna know?
Don't waste another minute of my precious time
The social strain is watching you out with all your friends
With the disgust that you pretend when I walk on by
You wear it well, treating me like someone you don't know
But then you call me on the phone to tell me goodnight
Uh oh, I think I better go
Before I turn this love into a crime
Uh oh, do you really wanna know?
Don't waste another minute of my precious time
You can turn me inside out
You can follow me around
I don't care what you do
Just as long as you know, I'm through
Uh oh, I think I better go
Before I turn this love into a crime
Uh oh, do you really wanna know?
Don't waste another minute of my precious time
Uh-oh, uh-oh
Don't wanna think about when you were mine
