

# Biggest Fan

Brendan Benson

Electric eyes and a see-saw brain  
The ghost of you and a phantom pain  
And insects iridescent sheen  
The bluest sky I've ever seen  
I've ever seen I want my piece, I want my slice  
A beat-up punk rock paradise  
Manish boy or a boyish man  
I'll always be your biggest fan  
Biggest fan Forgive me this attack on you  
For I know not what I do  
I'm up in the air, can't hear a sound  
You're making a noise on the ground  
On the ground, on the ground A distant stab and gas ignites  
The wind in your face, warm summer nights  
So take me along just for a ride  
Remember, I'm on your side  
On your side Cherchez la femme  
Cherchez la femme  
Cherchez la femme  
Cherchez la femme
