

The Days of Wine and Roses

The Dream Syndicate

The word from outside
and she is on the ledge again
 drawing a card
and threatening everything
I'm here wandering
 where I got in
Everybody says I don't care
but I'm just trying to remember
 the days of wine and roses
The priest from the parish
is looking for persuasion
the man with the notepad
 wants verification
somebody says this was my creation
Her mother says it's your fault
 you never looked after her
Her father arranging to
 get back the furniture
I'm here wandering
 what the reasons were.
