Bows

So you know, it was the first shot that did it
You could say, it changed my life
Centrefold, I'm living life how you live it
But I know it can't be right Even so feeling this low isn't easy
It's a lifelong flight from sorrow
And I suppose all your pose does is tease me
But there's nowhere else to go 'Cause you're a starlet in the making
Yes, you are, that's why I'm waiting here I don't believe the hype
But you're everything I hoped for
I don't believe the hype I don't believe the hype
But you're everything I hoped for
I don't believe the hype Can't relax, I'm way too neurotic
But your coolness calms me down
If love's a drug then your beauty is narcotic
Seems to always turn me 'round 'Cause you're a starlet in the making
Yes, you are, that's why I'm waiting here
Starlet in the making
Yes, you are, that's why I'm waiting here I don't believe the hype
But you're everything I hoped for
I don't believe the hype I don't believe the hype
But you're everything I hoped for
I don't believe the hype
