

Carry On

CÅ“ur de pirate

We sat on the edge of worlds the day
The light of the sundown on my fait
And we're tried-and-true our souls we bared
You promise to love me for some time

And carry on,
just cross the waters
I'll be okay,
'cause I've been loved,
I've been loved enough today

I know your fears
are hidden well beneath your wind
So don't belong and leave me here,
let me belong,
let me belong

In darkness we rise, at twilight we sway
Only then do we feel alive
And the verve we once had, it lies in the vein
I hear it yell it for our lives

So don't let me fall, don't let me fall
Let the night time come it's way
Don't let me fall, don't let me fall
Your way

And carry on,
just cross the waters
I'll be okay,
'cause I've been loved,
I've been loved enough today

I know your fears
are hidden well beneath your wind
So don't belong and leave me here,
let me belong,
let me belong

Don't you let me fall,

don't you let me fall
Let the night time come it's way

And carry on,
just cross the waters
I'll be okay,
'cause I've been loved,
I've been loved enough today

I know your fears
are hidden well beneath your wind
So don't belong and leave me here,
let me belong,
let me belong
