

Why Don't You Shut Up

Disciple

Remain in me, dont sever me
Dont spit me out
Call on me and walk me to Your way
My lips arent sealed Some will say this and then some will say that
I really dont know just where you are at
If the truth be told, youre just getting too old
Moving way too fast, and getting to cold You say that I should just give up
You say, "Why dont you just shut up?" Youll never shut me up
Forgive me if I should lose my way
Dont cut me off
'Cause I choose You in my life today
Even if they hate me
