United Alliance

Pagan's Mind

I was seeking the light
When misty morning came
And washed my sins away like rainAs the smoke is slowly clearing
Visions of light
Our revolutionEndless, our dreams carry on
All traces in time
United
Tears in our eyes, escaping the night
Through the eyes of the light, carry onWhen tide is running out
In silence all remain
When night sea breezes in
To hyperspeed exceed,
Illuminated rain
Here my cry to the skyEndless, our dreams carry on
All traces in time
United
Tears in our eyes, escaping the night
Through the eyes of the light, carry onInterference congregation
Mission for your secret vision
I see someone in the light
See in supervision
Intelligence collideEndless, our dreams carry on
All traces in time
United
Tears in our eyes, escaping the night
Through the eyes of the light, carry onWe'll see all the sanctuary
And we're all united
Our vision is clear
No more tears in our eyes
Escaping the nightThrough the eyes of the light
Through the eyes of the light
Through the eyes of the light
Carry on!
