

# Show U Off

## Chairlift

Take a break from moving mountains,  
I wanna show you off  
Laying low at home, whatever  
I wanna show you off  
To the boys who think they're clever,  
I want to show you off  
So that they see who's finally saying yes to love You can trust this, you can have this  
I'm not playing a game  
I wanna let this go public and not be ashamed  
They don't make them like you anymore 'Cuz if you got it like we got it  
If it's real and if you want it babe  
Show it off  
Let them how you get on  
Roll my window down to flaunt it  
Babe, show it off See I can be a discreet lover  
but I wanna show you off  
Can't keep this under cover  
If you wanna bring your boys around  
then you can show me off too You can trust this, you can have this  
I'm not playing a game  
I wanna preach this, unleash this  
And not be ashamed  
They don't make them like you any more  
So take a second, take a minute 'Cuz if you got it like we got it  
If it's real and if you want it babe  
Show it off  
Let them see how you get on  
Roll my window down to flaunt it  
Babe, show it off, show it off I am past the point of asking what  
What I wanna let the whole world know you're mine 'Cuz if you got it like we got it  
If it's real  
Let them see how you get on  
Roll my window down to flaunt it  
Show it off, show it off 'Cuz if you got it like we got it.  
And you got it like we do  
Hey, and if It's real  
Let me see you get down, down, down, down  
If it's real, real, real  
Let them see how you get down
