

# Pass The Love Around

## Krewella

My heart feels drunk  
I know that I don't need anything else  
Your smile's a drug  
With every moment that passes I melt  
We fill our lungs  
We breathe this night in  
There's no feeling more inviting  
We're never going home  
Never gonna be alone  
1 when we leave the house  
2am we're feelin' it now  
3 we pass the love around  
We don't wanna come down, wanna come down  
4 when we self destruct  
5am we can't get enough  
6 the sun is comin' up  
We don't wanna come down, wanna come down  
The chains are gone  
No ones stopping us from livin' out loud  
From dusk 'till dawn  
We lose ourselves in the arms of this crowd  
We spill our lungs  
Exhale this night out  
All we really want is right now  
We're never going home  
Never gonna be alone  
1 when we leave the house  
2am we're feelin' it now  
3 we pass the love around  
We don't wanna come down, wanna come down  
4 when we self destruct  
5am we can't get enough  
6 the sun is comin' up  
We don't wanna come down, wanna come down  
If all you ever wanted  
Was someone by your side  
Telling you "it's alright, it's alright  
Have no fear, we are here  
We'll pass the love around  
We'll never come down"  
1 when we leave the house  
2am we're feelin' it now  
3 we pass the love around  
We don't wanna come down, wanna come down  
4 when we self destruct  
5am we can't get enough

6 the sun is comin' up  
We don't wanna come down, wanna come down We don't wanna come down, wanna come down  
Pass the love around  
We don't wanna come down, wanna come down  
Pass the love around
