

Impossible Dreamer

Joni Mitchell

The street was loud from an angry crowd and
I thought of you, I thought of you, dreamer
Land of the free no hungry bellies
Impossible, impossible dreamer In the darkest part of the night blue shadows conjure you
And in the brightest height of the daylight
Sometimes I blink 'cause I think I see you dreaming like you do Impossible dreamer
Impossible dreamer
Impossible dreamer
Impossible dreamer The moon was bright like day for night
And I thought of you, I thought of you, dreamer
No acid rain love without pain
Impossible, impossible dreamer In the darkest part of the night blue shadows conjure you
And at the brightest height of the daylight
Sometimes I blink 'cause I think I see you dreaming like you do Impossible dreamer
Impossible dreamer
Impossible dreamer
Impossible dreamer The room was dark and full of sharks
And I thought of you, I thought of you, dreamer
Give peace a chance don't think just dance
Impossible, impossible dreamer In the darkest part of the night blue shadows conjure you
And at the brightest height of the daylight
Sometimes I blink 'cause I think I see you dreaming like you do Impossible dreamer
Impossible dreamer
Impossible dreamer
Impossible dreamer Impossible dreamer
Impossible dreamer
Impossible dreamer
Impossible dreamer
