Brought Me Back

[Darin](#)

Opened up my heart, and I let you in
And I think that I did just right
I forgot my past and the years I've spent
Lost in the dark of the nights
You gave me sunny days in many ways
You put a sparkle on my life
Look at your pretty face every single day
And I know that I did just right
Girl, you saved my broken heart
You brought me back, you brought me back
You bought my ticket to a brand new start
You brought me back, you brought me back
You brought me back, you brought me back
You brought me back
You brought me back, you brought me back
You brought me back
You held on so tight on every shaky bridge
You've always been by my side
You have been my light, taught me better things
You got me back my smile
The colors of my dreams
And your water at seas
So baby now I'm bloom in love
Look at your pretty face every single day
And I know that I did just right
Girl, you saved my broken heart
You brought me back, you brought me back
You bought my ticket to a brand new start
You brought me back, you brought me back
You brought me back, you brought me back
You brought me back
You brought me back, you brought me back
You brought me back
Put down the light, lay on the floor
Hold me tight, baby, don't let go
Don't let go, don't let go
Girl, you saved my broken heart
You brought me back, you brought me back
You bought my ticket to a brand new start

You brought me back, you brought me back
You brought me back, you brought me back
You brought me back
You brought me back, you brought me back
You brought me back
