

My Mood Swings (OST The big Lebowski)

Elvis Costello

She was smitten from the first
By a curious fellow
She said I love the way you talk
And with a flounce she announced it
I love the way that you pronounced it
Marshmallow Well she liked to sing along
To her favourite song
From the year that she was born
See how mysterious her fate is
She had to get born in the eighties
So speak to me, just like you should
Then we can do those wicked things
And if you want, we'll make it good
Before my mood swings Well he looked like one of those
Who would take off his clothes
Like you would peel a tangerine
No one's been known to decline this
Once he has found out what your sign is So speak to me, just like you should
Then we can do those wicked things
And it you want, we'll make it good
Before my mood swings So speak to me, just like you should
Then we can do those wicked things
And it you want, we'll make it good
Before my mood swings
So speak to me, just like you should
Then we can do those wicked things
And it you want, we'll make it good
Before my mood swings
