Pieces

Pressure 4-5

Take me right now
Up your arm, right
Next to your ear
So I can whisperSo what if I not forgive you
So what if you're not the one
I have to rise above you
And we must be moving onTake me down there
Share your secrets
Break the boundaries into piecesWake me up in
Time to miss you
I won't know it
And I won't careAnd so what if it's blown to pieces
At least you're still alive
'Cause I just can't believe this
You just laid down and diedTake me down there
Share your secrets
Break the boundaries into piecesJust say
On the way down you'll wave to me
Just say
On the way down you'll wave to meTake me down there
Share your secrets
Break the boundaries into piecesJust say
That you'll break me right into pieces
