Where the Freaks Go

Dust For Life

Yeah, I wanna go where the freaks go
Somewhere way down low
Yeah, I wanna be wasted, burnt down
Where the wick burns brightlyGoodbye my friend
You'll never be down again
Goodbye my friend, yeah
You'll never be down againYeah, I used to wonder why
You wanted to live and die every day
Yeah, you couldn't be
The bright winged butterfly
Black wings on a black skyAnd I wonder
Oh why? Oh why? Yeah
(Oh why?)
Oh why?What I forgave put my ass on the line
Lies came to life that truly blew my mind
I trusted youI paid hell to get through
I paid hell to get through
I paid hell to get through
I paid hell to get throughGoodbye my friend
You'll never be down again
Goodbye my friend
