Let's Be Natural

The Rutles

Time goes by, as we all know, naturally
People come and people go, naturallyLet's be natural, ever since the world began
Let's be natural, every woman, every man
Let's be natural, as part of nature's plan
Let's be natural, oh yeahStars are in the sky above, naturally
People rise and fall in love, naturallyLet's be natural, ever since the world began
Let's be natural, every woman, every man
Let's be natural, as part of nature's plan
Let's be natural, oh yeahEv'rything is ev'rything, naturally
Yeah, people cry, laugh and sing, naturallyLet's be natural, ever since the world began
Let's be natural, every woman, every man
Let's be natural, as part of nature's plan
Let's be natural, oh yeahPeople be so natural, people be so natural, people be so natural
People be so natural, people be so natural, people be so natural
People be so natural, people be so natural, people be so natural
