

Let's Be Natural

The Rutles

Time goes by, as we all know, naturally
People come and people go, naturally
Let's be natural, ever since the world began
Let's be natural, every woman, every man
Let's be natural, as part of nature's plan
Let's be natural, oh yeah
Stars are in the sky above, naturally
People rise and fall in love, naturally
Let's be natural, ever since the world began
Let's be natural, every woman, every man
Let's be natural, as part of nature's plan
Let's be natural, oh yeah
Ev'rything is ev'rything, naturally
Yeah, people cry, laugh and sing, naturally
Let's be natural, ever since the world began
Let's be natural, every woman, every man
Let's be natural, as part of nature's plan
Let's be natural, oh yeah
People be so natural, people be so natural, people be so natural
People be so natural, people be so natural, people be so natural
People be so natural, people be so natural, people be so natural
