

# When the Weather's Warm

[Hollis Brown](#)

Do you know when you are just pretending? Do you find, do  
you find love in your life. She woke up on a night in the  
early morning. What she saw was the age in her eyes. When  
it's gettin near dawn, that's when she wants you to come on  
back home. There are times when you look in your mirror, what you find  
can change your life. And baby when it's getting near dawn,  
that's when I want you to come on back home. I don't want you. I don't need you. I won't ask you to go.  
I don't want you, in the mornin'. I'm gon' stay if you go.  
When the weather gets warm, that's when I want you to come on back home. There are times when you look in  
your mirror. What you  
find, can change your life.
