

I May Again Know John

John Frusciante

Goodnight friends,
Remember me if you loved me.
Mother nature's slaughtered me.
Remember me if you loved me.
Mother nature's slaughtered me.
Love me.
I thought I saw a light.
Ahhhhhhh, no...
All I saw was the place
Where's my mind
And I've gotta know what it wanted with me.
Well, and if you've gotta face exploring
And what you know is bringing your ass down, john...
..... your ass down.
John!
Oh john, where are you?

We'd known as as we'd meet
Oh, I am alone
And life goes on.

I have seen through lines of lies
Well, at least tell me
Is it a mad, mad choice?
Hidden in a place of darkness
Heaven is so cold with blackness
You have seen her show,
But do you know where you'd go?
I have seen through lines of lies
Well, at least tell me
Is it a mad, mad choice?
It's been so long
Since I've seen the sun
Yeah life lasts so long
That the harm is all gone
It's been so hard
We'll sing the song
Yeah life lasts so long
That the harm is gone
