

# Put Yourself In My Place Baby

[\*\*Frankie Laine\*\*](#)

Put your self in my place, baby  
And try to understand the way I feel  
Imagine the tables turned  
And how I yearned to have you back in my arm  
Wouldn't that be heaven? Put your self in my place, baby  
Remember it's my first affair Those moments that we knew so well  
Deserve another try  
Two people with the same sweet memories  
Shouldn't let love go by Put your self in my place, baby  
Then you'll know how much I really care Wouldn't that be heaven? Put your self in my place, baby  
Remember it's my first affair Those moments that we knew so well  
Deserve another try  
Two people with the same sweet memories  
Shouldn't let love go by Put your self in my place, baby  
Then you'll know how much I really care  
Just think about it twice, it's easy to be nice  
Baby, put your self in my place
