

Heart to the Party

[Lenka](#)

Once I woke up,
I could see the dream was real
Once I woke up,
I could see the dream was real
The key fit the lock and then all that I could feel...
Was the moon shining bright on the midnight trees
And I'm sailin' along on the deep blue seas So bring your heart to the party
I wanna dance all night in the darkness darling
Bring your heart to the party
I wanna dance like I hope tomorrow will never come And fall like a star that knows its time is gone
As it toss through the air burning all the way
And I'm sayin' I cry for the shame and day Just close your eyes...
It'll be alright...
Just close your eyes... And bring your heart to the party
I wanna dance all night in the darkness darling
Bring your heart to the party
I wanna dance all night in the darkness darling
Bring your heart to the party
I wanna dance all night in the darkness darling Darling,
Darling,
Darling,
Darling~
