

# Baby Don't You Let Me Down

[Mikey Wax](#)

Long nights of whiskey are bringing me down  
The stars look so distant from here on the ground  
You offered me something I could not resist believed in a future that did not exist

But I wanna show you

Just hear me out Baby don't you let me down

Stay here with me

Baby won't you turn around

Got my heart on my sleeve

Maybe if i break it down

I think you'll agree

It's you and me forever

So baby don't you let me down Long flights from Nashville out to LA

Thought I saw you cryin as I boarded the plane

Now how I realize your life's like a stage the curtains are closing but don't turn the page Baby don't you let me  
down

Stay here with me

Baby won't you turn around

Got my heart on my sleeve

Maybe if i break it down

I think you'll agree

It's you and me forever

So baby don't you let me down And I won't tell you no

But I won't let you go

And that's a problem for both you and me Baby don't you let me down

Stay here with me

Baby won't you turn around

Got my heart on my sleeve

Maybe if i break it down

I think you'll agree

It's you and me forever

So baby don't you let me down
