My Love

Kevin Lyttle

Yeah, tomorrow
C'mon
(Will never die)
C'mon
All I need is a lie
Saw you last night again in a vision looking so lovely
Can't believe you took my breath away love that I'm feelin'
I reached out to touch you then you were gone again my friend
I hope we were lovers, maybe someday even more than friends
This love that I've got
(Even spirits fly so high)
Straight to the mountain top, no turning back
(The river's run dry)
(My love will never die)
Trust me believe me it's true
(My love will never die)
Trust me believe me it's true
(My love will never die)
(My love will never die)
Full moon tonight again and I'm wanting you feel like romancing
Got my bedroom set for 2 just me and you
We've flown our magic carpet to the stars I know you like it
I'll be a Genie if you ask it just bring your lamp and I will rub it girl
This love that I've got
(Even spirits fly so high)
Straight to the mountain top, no turning back
(The river's run dry)
(My love will never die)
Trust me believe me it's true
(My love will never die)
Trust me believe me it's true
(My love will never die)
(My love will never die)
We've flown our magic carpet to the stars, I know you like it
I'll be a Genie if you ask it just bring your lamp and I will rub it girl
This love that I've got
(Even spirits fly so high)
Straight to the mountain top, no turning back
(The river's run dry)

(My love will never die)
Trust me believe me it's true
(My love will never die)
Trust me believe me it's true
(My love will never die)
(My love will never die)
Trust me believe me it's true
(My love will never die)
Trust me believe me it's true
(My love will never die)
(My love will never die)
My love, my love will never die
My love will never die
My love will never die
My love will never die
