If I Fall

Render

What if I fall along the way
Would you be there?
So you heard, that I'm on my way
Wish that I didn't have to say goodbye
I'll rely on your faith in me
I got my feet on the ground
But, but my head's in the clouds
Can't forget where I come from
I hope your there when I'm done
I got my feet on the ground
But my head's in the clouds
Can't forget where I come from
I hope your there when I'm
What if I fall along the way
Would you be there to ease the pain?
It's my one shot, can't fuck it up and throw it away
Won't be long, won't be long before I break
It's the touch, and the taste
It's the feel of a brand new place
When I go, you'll be there
In a month, in a year
I got my feet on the ground
But, but my head's in the cloud
Can't forget where I come from
I hope your there when I'm done
I got my feet on the ground
But my head's in the clouds
Can't forget where I come from
I hope your there when I'm

What if I fall along the way
Would you be there to ease the pain?
It's my one shot, can't fuck it up and throw it away
Won't be long, won't be long before I break
What if I fall along the way
Would you be there to ease the pain?
It's my one shot, can't fuck it up and throw it away
Won't be long, won't be long before I break
So, so you think that I am wasting my time

But I'm ready, I'm ready to go
So, so I know I've got this under control
But I'm ready
What if I fall along the way
Would you be there to ease the pain?
Cause it's my one shot, can't fuck it up or throw it away
Won't be long, won't be long
What if I fall along the way
Would you be there to ease the pain?
It's my one shot, can't fuck it up and throw it away
Won't be long, won't be long before I break
What if I fall along the way
Would you be there to ease the pain?
It's my one shot, can't fuck it up and throw it away
Won't be long, won't be long before I break
So ,so you think that I am wasting my time
But I'm ready (I'm ready to go)
So, so you think that I am wasting my time
Won't be long (I'm ready to go)
