

We Might Never Feel This Way Again

Phoebe Snow

Looking the way we you are now
Reading the thoughts in your head
Feeling the way that I do
When it's all rightIt's just for a moment or two
I'd stand here forever with you
Touching so close from a distance
There's nothing that I wouldn't do
And it's alright
All all all rightWe might never feel this way again
Again
Ooooh yeah
Never feel this way again... again... hay hay hayTrue silence wakens the sleep
Shows only two hearts to the beat
Looking ahead on the outside
Lighten the courage down deep
Where it's all right...
All all rightMight never feel this way again
Again
Ooooh yeah
Never feel this way again... again... hayyyI... Might never feel this way again
Again
Ooooh yeah
Never feel this way again... again...
Hey hay hay hay haIn this time
Our love
Now and forever
Yours and mine
Is always a lifetime to shareIt might never feel this way again
Again
Ooooh yeah
Never feel this way again
Again hay hay hayIt might never feel this way again
Again... hell yeah
Never feel this way aye
never feel this way aye yeah
Never feel this way
Again...Might never feel this way
Again
Never feel this way

Again
