

# In My Grip

## Samhain

Hot night, break-neck, oozing into that thing  
It seethes, it foams, it splits the death of love  
All the things you hold most dearGone, and the world it dies, in my grip  
All the world and everything, in my gripHold tight, it comes, entry level, smooth and quick  
To claim its wants, it need only put out its hand  
All the things you hold most dearGone, and the world it dies, in my grip  
All the world and everything, in my grip  
And the world it dies, in my grip  
All the world and everything, in my gripYour mate, your life, everything you are and could be  
It owns, it covets, it splits the death of hope  
All the things you hold most dearGone, and the world it dies, in my grip  
All the world and everything, in my grip  
And the world it dies, in my grip  
All the world and everything, in my grip
