Deal With The Devil

Nazz Nazz

I was just a young boy
Elvis Presley was the king
He had the money the girl and the stretch limousine
There was drums and guitars
then the beatles and stones
and a million girls never left them alone
Traded my soul for rock and roll
I made a deal with the deviil
Fortune and fame, fire and flames
I made a deal with the devil
Teased by the fruit and lead to temptation
It was my school boy dream
I had to rock the nation
I got an electric guitar and joined a rock and roll band
On a world wide tour of the promise land
Party all night, sleep all day
In a rock and roll heaven there's a hell to pay
Traded my soul for rock and roll
I made a deal with the devil
Fortune and fame, fire and flames

I made a deal with the devil
Living in sin, let the party begin'
I made a deal with the devil
Come on, let's go, it's a rock and roll show
Red hot flames will light the sky
These immortal souls
we will walk on hot coals
In a land were you live and never die
(solo)
Come on girl, just follow me
I'm gonna take you down, down, down
Traded my soul for rock and roll
I made a deal with the devil
Fortune and fame, fire and flames
I made a deal with the devil
Bottles of booze and girls with tattoos
I made a deal with the devil
sex and guitars just to be a rock star

I made a deal with the devil
