Middle Of The Night

Evol Intent

Middle of the night hold on till morning
We will see the light love is spawning
Middle of the night hold on forever
We'll know when it's right all togetherWhen will we listen
When will we ever learn
Read all about it
This tide has got to turnMiddle of the night hold on till morning
We will see the light love is spawning
Middle of the night hold on forever
We'll know when it's right all togetherOld folks and baby's
They're crying in the storm
I tried to tell them
Soon they'll be safe and warmMiddle of the night hold on till morning
We will see the light love is spawning
Middle of the night hold on forever
We'll know when it's right all togetherLord let us out of this hall full of mirrors
Make it all clearer don't let us fall
In the middle of the nightMiddle of the night new voices calling
Saying it's alright I'm not falling
Middle of the night halfway till morning
Middle of my life new days dawningMiddle of the night hold on till morning
We will see the light love is spawning
Middle of the night hold on forever
We'll know when it's right all togetherMiddle of the night new voices calling
Saying it's alright I'm not falling
Middle of the night halfway till morning
Middle of my life new days dawningMiddle of the night hold on till morning
We will see the light love is spawning
Middle of the night hold on forever
We'll no when it's right all together
