

# I Love You Dawn

## Crowded House

I love you, Dawn, you understand  
The strength of ten men in your hands  
Was another tear, was another time  
All is not lost and we will shine  
Beneath the tall trees, I believe  
There's nothing you and me  
Can't do together if we try  
The day is long and the nights are cold  
Just a song to warm your soul  
I don't wanna see you cry  
I love you, Dawn, you understand  
The strength of ten men in your hands

Was another tear, was another time  
All is not lost and we will shine  
Above the billboards and the hordes  
Magazines and rock awards  
We can't afford to pay our bills  
The day is long and the nights are cold  
Just a song to warm your soul  
I don't wanna see you cry  
I love you, Dawn  
I love you, Dawn, you understand  
The strength of ten men in your hands  
It was another tear, another year, another time  
All is not lost and we will shine, shine, shine
