

Undefeatable

Parade of Lights

So it's just another day,
Working hard to wait till everything falls into place,
Like a face without a name, but
History is gonna change So it's time to take a stand,
Even if you feel the weight of the world now and then,
'Cause the future's in your hands, so
Keep on fighting till the end Come on, tear me apart
Rip right through the middle
Put the knife in my heart
We are one, we'll never stop
Looking back at everything we are
Undefeatable, oh oh oh oh
Undefeatable, oh oh oh oh Let it break before you bend,
Make it count your life is something you have to defend
You could lose or you could win, so
Keep on fighting till the end Come on, tear me apart
Rip right through the middle
Put the knife in my heart
We are one, we'll never stop
Looking back at everything we are
Undefeatable, oh oh oh oh
Undefeatable, oh oh oh oh I know you're about to break
Don't give up an run away
You know you can be stronger
Doesn't have to be this way
Just say what you want to say
You can't wait any longer Come on, tear me apart
Rip right through the middle
Put the knife in my heart
We are one, we'll never stop
Looking back at everything we are
Undefeatable, oh oh oh oh
Undefeatable, oh oh oh oh
Undefeatable, oh oh oh oh
Looking back at everything we are
Undefeatable
