Thunderbolts

A.C. Newman

We used to throw thunderbolts
They rained down on passing cars
We played it too green the stars
To play it with any artYou don't need those glasses but
You just look so good in them
We used to throw thunderbolts
Good ideas even thenThey let you, let you ride
They let you, let you rideWe used to throw thunderbolts
Twilight on the overpass
We rest in that gravity(?)
Colorfast and cool with meAnd we had some direct hits
We shone in that villain light
TV yellowed, hanging 'round
In whatever's shining downIt let you, let you ride
It let you, let you rideWe used to ride thunderheads
We rode them around the bend
You don't need those glasses
But you just look so good in themThey let you, let you ride
They let you, let you ride
They let you, let you ride
They let you, let you ride
