

# Untamed

Gavin DeGraw

The letters you wrote me had hollow point headers  
If you think you've got it like that find somebody better  
You said I need fixing, you numbered the stages  
But I won't be living in one of your cages  
Open your mind and understand When you're hard on me, it's not what I need  
We were meant to be untamed  
I'm on my feet, wanna run free  
And there's nobody taming me I'm out from the narrow protective container  
Designed to be opened with your childish behavior  
'Cause you're not the critic of personal purpose  
And I'm just not willing to community service  
I don't know why you lay it on When you're hard on me, it's not what I need  
We were meant to be untamed  
I'm on my feet, wanna run free  
And there's nobody taming me You say that I should lend a shoulder  
Right now, 'cause your whole world is blowing up  
Go ahead but I won't be your soldier  
'Cause you're the one who started up  
You're the one who started up When you're hard on me, it's not what I need  
We were meant to be untamed  
I'm on my feet, wanna run free  
And there's nobody taming me When you're hard on me, it's not what I need  
We were meant to be untamed  
I'm on my feet, wanna run free  
And there's nobody taming me We were meant, we were meant to be untamed  
We were meant, we were meant to be  
We were meant to be untamed  
We were meant, we were meant to be  
We were meant to be untamed, oh, oh
