

Military Man

Asia

The fighting's over now, there's nowhere left to run
My ammunition's out, I'd better put down my gun
And as I face this life of fear, I'd better keep my conscience clear
Inside my mind I'm out of it and I ain't never coming back So don't come running here to find me
'Cos I'm a military man
And as I spin this wheel of fortune
In my military world, I'm a military man The architects of time are calling me
But I don't believe it necessarily
And as I face this life of fear break the chains that bind me here
Inside my head I'm out of it but I'm still never coming back So don't come running here to find me
'Cos I'm a military man
And as I spin this wheel of fortune
In my military world, I'm a military man
