Another Brick In The Wall

London SO

We don't need no education
We don't need no thought control
No dark sarcasm in the classroom
Teacher, leave them kids aloneHey, teacher, leave the kids aloneAll in all it's just another brick in the wall
All in all you're just another brick in the wallWe don't need no education
We don't need no thought control
No dark sarcasm in the classroom
Teacher, leave them kids aloneHey, teacher, leave us kids aloneAll in all you're just another brick in the wall
All in all you're just another brick in the wall
