

I Tried

Brandy

I'm sittin' home on a cold day
Underneath the covers like a little baby
I think I wanna hear some Coldplay
Especially that song where the man says Did I drive you away? I know what you're sayin'
(Yeah, yeah, yeah)
Ooh, whoa, whoa
I know all about your ways What you do when you're gone
And I knew all along
And they say some people change
So I'll just turn and look the other way I tried to be blind to your game
Deep down I knew you wouldn't stay around
Shoulda left your side in the first place
But I thought I'd be cool when you would play around I tried to be blind to your game
Deep down I knew you wouldn't stay around
Shoulda left your side in the first place
But I thought I'd be cool when you would play around All I can see is your old face
Givin' my love away at some woman's place
Maybe I should I get up and go wash my face
Cryin' never kept you at home anyway Did I drive you away? I know what you're sayin'
(I know I didn't but you said it)
Ooh, whoa, whoa
I know all about your ways What you do when you're gone
And I knew all along
And they say some people change
So I'll just turn and look the other way I tried to be blind to your game
Deep down I knew you wouldn't stay around
Shoulda left your side in the first place
But I thought I'd be cool when you would play around I tried to be blind to your game
Deep down I knew you wouldn't stay around
Shoulda left your side in the first place
But I thought I'd be cool when you would play around I noticed it, the calls you get
Leavin' the room and shit
And I knew you had a bitch
And I hated it, that's what I get I noticed it, the calls you get
Leavin' the room and shit
And I knew you had a bitch
And I hated it, that's what I get I tried to be blind to your game
Deep down I knew you wouldn't stay around
Shoulda left your side in the first place

But I thought I'd be cool when you would play around
I tried to be blind to your game
Deep down I knew you wouldn't stay around
Shoulda left your side in the first place
But I thought I'd be cool when you would play around
I tried to be blind to your game
Deep down I knew you wouldn't stay around
Shoulda left your side in the first place
But I thought I'd be cool when you would play around
I tried to be blind to your game
Deep down I knew you wouldn't stay around
Shoulda left your side in the first place
But I thought I'd be cool when you would play around
Thought I'd be cool
Thought I'd be cool
