

Fast Money from Slow Horses

This Old Ghost

You say were alike but were not, no were not even close
Cause I know who you are and you think you know me but you dont.
Started moving along but you couldnt ignore your desire
So you tossed me aside and attempted to hide on a wire
He kept us in the darkDid you play in your head the way that I would react to the news
And how you would respond like it all just came out of the blue yeah
Well you blame it on love and whos gonna argue with that
Or admit to the fact you were wrong to go behind my backHe kept us in the dark
No time to repair
He kept us in the dark
Why were we thereAnd in the midst of a tall tale I found clarity
Cause the truth is I was in the wrong myself
The past couple years have been real hard on us
Heres to hoping we can learn from our mistakes
