

We All Grow Up

Lily Kershaw

yes we all left we don't live here anymore
teenage tribulation settled child hood scores
and we gave hell to our parents
we gave it to them good
we left them with poor credit scores
then we left the neighborhoodcause we all grow up
we all move out
and get out of our hometown
we all get jobs
some break the law
some run their lives into the ground
but i'll miss the days sneaking cigarettes
around the neighborhood
pretending that we were bad when
really we were goodwestward i went
on the east you were hell bound
i smoke cloves in orange grove
.....
and i mis the way things were
when i was a little girl
dreams of things i hadn't seen
the world was for the takingbut we all grow up
we all move out
and get out of our hometown
we all get jobs some break the law
some run their lives into the ground
but i'll miss the days sneaking cigarettes
around the neighborhood
pretending that we were bad when
really we were goodyes we all left
we don't live here anymorecause we all grow up
we all move out
and get out of our hometown
we all get jobs
some break the law
some run their lives into the ground
but i'll miss the days sneaking cigarettes
around the neighborhood
pretending that we were bad when

really we were goodbyes we all left
we don't live here anymore
