Red Cup

Priscilla Renea

[Verse 1:]Can you tell me what the deal is?
Can you tell me what ya' feelin'
without a red cup?
So can you tell me, tell me what's up?
I got ya' number, babe
The jigs up
What's in the red cup?
[Bridge:]What's it tonight?
Is it Alize, rum, or Hennesy?
What's it tonight?
Is it Grand Marnier, maybe Tanqueray?
I don't know how to spell that
but I bet you I can smell that
from a mile away
Hey hey
Hey hey
[Chorus:]What's in your cup?
Is that your version of love?
Tell me, what's in your cup?
That's not what I would call real love
What's in your red cup?
What's in the red cup?
[Verse 2:]So can you tell me why it looks like
summer afternoons and cold nights
that's in your red cup?
I don't mean to fuss and whine, no
but you smell just like a wino
What's up?
[Bridge:]What's it tonight?
Is it Gold Patron, Ciroc, or Nuvo?
What's it tonight?
Is it Belvedere with the black label?
I don't know how to spell that
but I bet you I can smell that
from a mile away

Hey hey
Hey hey
[Chorus:]What's in your cup?

Is that your version of love?
Tell me, what's in your cup?
That's not what I would call real love
What's in your red cup?
What's in the red cup?
[Verse 3:]Can you tell me why you always so intoxicated
when I just really wanna have a conversation?
And I can hardly understand one word
That's cause every other, other word is slurred
I was your tall glass of water
but you treated me like a daughter
I wasn't really finished loving you yet.
But you're so busy yelling with your Napoleon complex
[Chorus:]What's in your cup?
Is it your, is it your version of love?
What's in your cup?
Cause that's not what I would call real love
[Rap Verse:]I think I loved you more when you got
that red cup in your digitals
I mean, your fingertips
And when you put that plastic to your lips
I know you 'bout to say all the things you never did
Uh-uh, when you was sober
Uh, but do I really want you to come over?
Gotta check the cabinets to see if I got mo' of the Moets
So, before I say yes answer me a question:
What's up in the red cup?
What's in your cup?
Is that your version of love?
What's in the red cup?
What's in the red cup?
What's in the red cup?
