

Got Your Heart

Anders Osborne

I've been makin' my way downtown
You've been waitin' for me to come get you
I know just where you wanna go
I love it when we're together
You know that we could drive forever
Let's go to the place we only know
Me and you, we're gonna get away
To see those city lights
Make our way through the promenade
And we're gonna dance all night, come on
Whose got your heart, got your heart, baby
Whose got your heart, got your heart, baby
Whose got your heart, got your heart, baby, tonight
I've got your heart, baby
I've been waitin' to see you again
Hopin' this time it will never end
Just call and say you wanna go
Me and you gonna get away
To see those city lights
Make our way through the promenade
And we're gonna dance all night, come on

Whose got your heart, got your heart, baby
Whose got your heart, got your heart, baby
Whose got your heart, got your heart, baby, tonight
I've got your heart, baby
Whose got your heart, got your heart, baby
Whose got your heart, got your heart, baby
Whose got your heart, got your heart, baby, tonight
I got it, I got it
I can see you and me
Dancin' free under the glow
Take my hand it's our chance
We'll never stop, let's go
Whose got your heart, got your heart, baby
Whose got your heart, got your heart, baby
Whose got your heart, got your heart, baby, tonight
I've got your heart, baby
Whose got your heart, got your heart, baby

Whose got your heart, got your heart, baby
Whose got your heart, got your heart, baby, tonight
I got it, I got it
