

# Without You (feat. Anto)

Dario Synth

VERSE 1:

Why don't you come home?

I'll stay beside you.

We'll take the reins and ride these white horses  
to a crystal sea.

There's a voice in my head that says

I'm better without you,

but there's a beat in my heart that prays  
it prays we can pull through...CHORUS:

Do you feel like you're still falling down?

I'm here waiting for you.

Do you feel like you're still so alone?

My heart can't go on  
without you...you... you...  
without you...you... you...  
without you...you... you...  
without you...you... you...  
without you...VERSE 2:

Lost in the moment

my mind speaks things untrue,

Love is a passion ignites with compassion  
and this love is burnin' bright.

There's a voice in my head that says

I'm better without you,

but there's a beat in my heart that prays  
it prays we can pull through...CHORUS:

Do you feel like you're still falling down?

I'm here waiting for you.

Do you feel like you're still so alone?

My heart can't go on  
without you...you... you...  
without you...you... you...  
without you...you... you...  
without you...you... you...  
without you...
